| Project Name | Project - Smart billing system for water suppliers |  |  |  |

## **Data Flow Diagrams:**

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

## Flow

- User configures credentials for the Watson Natural Language Understanding service and starts the app.
- 2. User selects data file to process and load.
- 3. Apache Tika extracts text from the data file.
- 4. Extracted text is passed to Watson NLU for enrichment.
- 5. Enriched data is visualized in the UI using the D3.js library.

Example: DFD Level 0 (Industry Standard) User Fulfillment orders Orders -order information--shipping informationproduct user name, user name, Process order Ship products user address user address billing information User product user name, Invoices user address invoices, statements/ Collect payment -billing information-Users payments, inquiries

**Example:** Smart billing system for water suppliers\_\_\_\_\_

## **User Stories**

Use the below template to list all the user stories for the product.

| User Type                  | Functional<br>Requirement<br>(Epic) | User Story<br>Number | User Story / Task   | Acceptance criteria   | Priority | Team Member       |
|----------------------------|-------------------------------------|----------------------|---|---|----------|-------------------|
| Customer<br>(Mobile user)  | Registration                        | USN-1                | As a user, I can register for the application by entering my email, password, and confirming my password. | I can access my account / dashboard                             | High     | S.MAHESHSWARI     |
|                            |                                     | USN-2                | As a user, I will receive confirmation email once I have registered for the application                   | I can receive<br>confirmation email &<br>click confirm          | High     | T.J.BHAGYALEKSHMI |
|                            |                                     | USN-3                | As a user, I can register for the application through Facebook  | I can register & access<br>the dashboard with<br>Facebook Login | Low      | E.SHANMUGAPRIYA   |
|                            | Login                               | USN-5                | As a user, I can log into the application by entering email & password                                    |   | High     | M.KUMUTHALAKSHMI  |
|                            | Dashboard                           |                      |   |   |          |                   |
| Customer (Web user)        |                                     |                      |   |   |          |                   |
| Customer Care<br>Executive |                                     |                      |   |   |          |                   |
| Administrator              |                                     |                      |   |   |          |                   |
|                            |                                     |                      |   |   |          |                   |
|                            |                                     |                      |   |   |          |                   |
|                            |                                     |                      |   |   |          |                   |
